# ✅ Project Charter for Uni-Connect

## 1) Project Title:

**Uni-Connect – Collaborative University Platform**

## 2) Project Manager:

**Muhammad Ahmed**

## 3) Project Purpose and Justification:

Students lack a structured platform for educational collaboration across departments, accessing past papers, or escalating departmental issues. Events and updates are not targeted properly. Uni-Connect solves these problems through a smart, contextual, and student-focused web platform.

## 4) Project Objectives:

- Academic help via subject-specific posts

- Departmental and university event notifications

- Issue reporting to department advisers

- Centralized university update system

- Subject-wise past paper access

## 5) High-Level Requirements:

- Real-time post system with filters

- Student messaging (text, audio, call)

- Advisor interface for issue visibility

- Admin panel for post/event management

- Document upload for past papers

## 6) Assumptions:

- Students will use their email for login

- Department advisers agree to receive reports

- Deployment limited to initial departments in Phase 1

## 7) Constraints:

- **Deployment limited to 5 departments in Phase 1**

- **Project must be completed in 3 months**

- **Web-only deployment (no mobile app)**

## 8) Major Milestones:

- **Requirements Finalized** – Aug 5, 2025

- **UI/UX Design Final** – Aug 15, 2025

- **Backend APIs Completed** – Aug 25, 2025

- **Core Modules Integrated** – Sep 20, 2025

- **Pilot Testing & Feedback** – Oct 5, 2025

- **Final Launch for Phase 1** – Oct 20, 2025

## 9) High-Level Risks:

- Delay in university IT access

- Over-scoping of MVP

- Low initial user engagement

- Government policy conflicts

## 10) Key Stakeholders:

- Development Team (All 7 Members)

- University Students (end users)

- Department Advisors

- University Admin/IT Department

- Government/Policy Offices (via Haris)
